- **We supply on-site outsourcing services**
- **We have fully trained multilingual personnel and worldwide agents to offer you a global service**
- **We can supply you with our tailor made shipping software**
- **We offer bespoke training & consultancy**

Specialists in project shipments

We offer expertise in transporting oversize, out of gauge and hazardous cargo and we are also experts in letters of credit documentation

Quality services

We pride ourselves on delivering the highest level of bespoke customer service from our many highly trained and long-serving employees. With fast, prompt, detailed communication we keep in touch every step of the way along your cargo's journey

Road & rail distribution

Wallis can handle your full and part load shipments into Europe by road and rail. We can source any type of truck, dedicated vehicle or haulage solution to meet your needs and we provide cost effective post-Brexit options to and from Europe and Ireland.

Cross trade shipments

Today's global trade is more complex involving multiple supply chains across different continents. Wallis provide the link to join together your sourcing and sales opportunities outside the UK. It doesn't matter where you are shipping to or from, we will be able to provide a solution for you.

Documentation & insurance

At Wallis we can save you both time and money when you utilise our export and import documentation services Whether it's export customs entries, transit documents or Certificate of Origin you need, we can help. We can also help get you paid for your shipments when you use our Letter of Credit management services.

Ocean freight

Wallis Shipping are the freight forwarder of choice for many UK and global manufacturers and retailers. Export, import and cross trade shipments of all shapes and sizes by sea freight container or part-loads are what we handle for our clients and have done for over 35 years.

Air freight

Our clients frequently need their cargo moved as soon as possible. Airfreight provides them with an option for time sensitive shipments and is often the most secure and direct way of handling cargo being delivered to landlocked destinations.

Warehousing & packing

Wallis Shipping can provide flexible freight management solutions to meet the needs of changing global trade patterns. Whether you import or export we can provide warehousing, storage or packing solutions to meet your needs.

Expotease, supply chain software

Our in-house shipping software can deliver all your documentation; a unique software application that links together your supply chain

An aerial, top-down view of an airport terminal building. The terminal is a large, rectangular structure with a central circular area. Several aircraft are parked at gates along the terminal's perimeter. The image is dark and semi-transparent, serving as a background for the text.

Multi-modal, all types of cargo

We ship everything from construction equipment,
machinery, food, medical and humanitarian aid;
to consumer goods and vehicles

Machinery & vehicles

We often send tractors and cars by Ro-Ro containers and even by air on freighter carriers.

Construction & engineering

We ship everything from small pallets of vital components to heavy equipment such as excavators and cranes.

Energy & renewables

We ship equipment used for generating energy: power stations, dams, off-shore wind farms and water treatment facilities.

Food & drink logistics

We regularly ship food & drink with refrigerated transport solutions and are well versed in POAOs, EHCs and food licences.

Medical supplies

We have expertise in health and humanitarian logistics, transporting medical and first aid supplies around the world.

Events & exhibitions

We organise event logistics including exhibitions, sporting events, art, and music concerts, and can move equipment on carnets.

Our environmental credentials

We recognise our obligation to reduce the impact of business activities on the environment. We continue to invest in services and solutions to add value to our customers' global supply chains whilst aiming to reduce our carbon footprint. As of 2022, we have made a commitment to plant a tree for every shipment we do for our clients.
